Drip Hydro Dip Rooting Gel
KEEP OUT OF REACH OF CHILDREN
CAUTION

FIRST AID

If on skin or clothing:

- Take off contaminated clothing
- Rinse skin immediately with plenty of water for 15-20 minutes
- Call a poison control center or doctor for treatment advice

If swallowed:

- Call a poison center or doctor immediately for treatment advice.
- Have a person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to by a poison control center or doctor.
- Do not give anything to an unconscious person

HOT LINE NUMBER

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency medical assistance, call the National Poison Control Center at 1-800-222-1222, 24 hours a day, 7 days a week.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION - Harmful if swallowed or absorbed through the skin. Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water when disposing of equipment wash waters or rinsate.

DIRECTIONS FOR USE:

It is a violation of Federal law to use Drip Hydro Dip in a manner inconsistent with its labeling.

Drip Hydro Dip is a thick gel used to propagate new plants from stem and leaf cuttings. Drip Hydro Dip is formulated with an essential hormone that promotes rapid root generation and growth. Drip Hydro Dip may be used on any type of cutting, including woody, herbaceous, and flowering ornamental species, vegetables, fruit trees, and small fruits.

TAKING CUTTINGS:

Take cuttings only from new growth on healthy plants. Trim cuttings to 2-8 inch pieces. Make cuts at a 45-degree angle. **Do not dip cuttings into container. Do not pour used gel back into container.** Immediately dip into Drip Hydro Dip or immerse in water until ready to be dipped. The cuttings can also be re-cut prior to dipping. Spray cuttings frequently and use a humidity dome to prevent excessive wilting.

APPLICATION INSTRUCTIONS:

Empty a small amount of Drip Hydro Dip into a separate container. **Do not dip plants directly into the bottle.** Dip the cut end of the stem into Drip Hydro Dip to desired depth. After Drip Hydro Dip has been applied, place cuttings into the rooting medium. Depending on the species, rooting will take place in days, weeks, or months under optimal environments. Transplanting may be performed once the cuttings have rooted.

See inside panel for additional precautionary statements.

Drip Hydro Dip is formulated with an essential hormone that promotes rapid root generation and growth.

If in eyes:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency medical assistance, call the National Poison Control Center at 1-800-222-1222, 24 hours a day, 7 days a week.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store only in original container, in a cool dry place out of the reach of children and out of direct sunlight.

Pesticide Disposal and Container Handling: Non-refillable container. Do not reuse or refill this container. If empty: place in trash or offer for recycling if available. If partially filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY

The manufacturer warrants that his product conforms to the chemical description on the label and that Drip Hydro Dip is reasonably fit for the purposes set forth in the directions for use.
